Dear Colleagues, Researchers, and Authors, It is our great pleasure to announce the release of the new June issue of the Journal of Medical and Oral Biosciences (JMOB). This issue presents a distinguished collection of multidisciplinary scientific articles covering various fields of medicine, dentistry, oral sciences, biomedical sciences, microbiology, pathology, pharmacology, nanotechnology, and public health. The diversity of topics published in this issue reflects the journal's vision in supporting multidisciplinary scientific research and encouraging collaboration between different medical and biological specialties. We are proud of the valuable scientific contributions submitted by researchers from different universities and research institutions, which continue to enrich the scientific content and academic quality of JMOB.

We are also pleased to announce that JMOB has been successfully indexed in the Iraqi Academic Scientific Journals platform, which represents an important milestone in the development and academic recognition of the journal. This achievement reflects the continuous efforts of the editorial board, reviewers, authors, and supporting academic institutions in maintaining scientific quality and publication standards.

Following this achievement, the journal administration is actively working on several future development steps aimed at improving the journal's international visibility and scientific impact, including:

- Strengthening the peer-review and editorial evaluation process.
- Expanding cooperation with international researchers and reviewers.
- Updating and improving the electronic submission and publishing system.
- Enhancing publication ethics policies and research integrity standards.
- Encouraging high-quality multidisciplinary research with clinical and scientific impact.
- Increasing opportunities for indexing in regional and international scientific databases.
- Improving citation rates and the global accessibility of published articles.
- Supporting young researchers and promoting scientific publishing culture within academic institutions.

The editorial office of JMOB remains committed to providing a professional scientific platform that supports innovative research and contributes to the advancement of medical and oral biosciences.

We extend our honest appreciation to all authors, reviewers, editorial board members, and readers for their continuous support and trust in JMOB. Your contributions are the foundation of the journal's progress and success.

We look forward to continued collaboration and future achievements together.

With sincere regards and appreciation,

Professor Dr. Karima Akool Al Salihi

Editor-in-Chief
